LET GROW!

HI! I AM NOT LOST OR NEGLECTED.

I have been taught how to cross the street. I know never to go off with strangers... but I can talk to them (including you)! The state generally grants substantial leeway for parents to decide what age their child can do some things independently. Mine believe it is safe, healthy and fun for me to explore. **If you do not believe me, please call or text them.**

If you think it is inappropriate or illegal for me to be on my own, please:

- Read "Huckleberry Finn"
- Visit LetGrow.org
- Remember your own childhood! Was your parent with you every second? And with today's crime rate back to what it was in 1963, it is safer to play outside NOW than when you were my age.
